Summer 1928

How to Determine Which Points You Can Call on a Local Basis from Brooklyn and Queens

Subscribers Located in Manhattan and The Bronx see the Manhattan and The Bronx Directory
Subscribers Located in Staten Island see the Staten Island Directory

1st. Find out in what zone the telephone from which you are calling and in what zone the telephone which you desire to call are located by consulting Table D at the bottom of the page.

2nd. Determine whether there is local service between the two zones by consulting either Table A if you subscribe to message rate service or if you are calling from a public telephone, or Table B if you subscribe to flat rate service.

Notes: If local service is not quoted between the two zones, you can determine the toll rate by consulting Table C.
Subscribers with dial telephones should dial the numbers in their own local service area.

Table A. Message Rate Subscribers and Public Telephones

For Subscribers in Zone 4	Local Service Area Includes Central Offices in Zone 1, 2, 4, 5, 6E, 6W, 7E, 7W
" " " Zone 5	" " " " " " " " 1, 4, 5, 6E, 6W, 7E, 7W, 8
" " " Zone 6E	" " " " " " " " 4, 5, 6E, 6W, 7E, 7W and Imperial
" " " Zone 6W	" " " " " " " " 4, 5, 6E, 6W, 7E, 7W
" " " Zone 7E* & 7W*	" " " " " " " " 4, 5, 6E, 6W, 7E, 7W, 8
" " " Zone 8**	" " " " " " " " 5, 7E, 7W, 8

*In addition, the Floral Park Central Office is in the local service area of Fieldstone subscribers.
**In addition, the Cedarhurst Central Office is in the local service area of Far Rockaway subscribers.

HOW TO
MAKE OUT-OF-TOWN CALLS

Manual and Dial Telephones

You may use either the station-to-station service to Toll and Long Distance points or the person-to-person service at a higher rate, as outlined below.

TO PLACE A STATION-TO-STATION CALL, give the name of the city and the telephone number to your operator. IF YOU DO NOT KNOW THE NUMBER, CALL INFORMATION.

TO PLACE A PERSON-TO-PERSON CALL, call Long Distance and give her the details of the call.

Faster service will be obtained on person-to-person calls if you give the telephone number.

Make a note of telephone numbers for future reference.

Station-to-Station Calls
from One Telephone to Another

Station-to-station calls are calls on which you do
k the operator for any particular person or
t Private Branch Exchange station, for example
adelphia, Walnut 1234 on which you
who answers.

rapidly and
Reduced

Save Time—Talk

rates, generally, are in effect during evening and
periods. See "Evening and Night Reduced R
on Page 7.

Charge is made if anyone at the called s
answers from the time that connection is comp
between the calling and the called station. The
no report charge, except on collect calls. See "R
Charges" on Page 7.

HOW TO MAKE OUT-OF-TOWN CALLS (continued)

Person-to-Person Calls
from One Person to Another

Person-to-person calls are calls on which you DO k the operator to call a particular person to the lephone or to reach a particular Private Branch xchange station.

For example, a call for "Mr. Paul Smith at Boston, lain 3340" or for "Mr. John J. Warren, 463 16th reet, Denver, Col." or for "Baltimore, Madison 2000, xtension 41."

The rates are somewhat higher than station-to-station ates but no charge other than a report charge is made unless the desired person or Private Branch Exchange station is reached. There is no reduction during evening and night hours. See table on page 12.

Charge is made from the time that conversation starts with the particular person or with some one at the designated Private Branch Exchange station.

* * *

Note:—Calls to nearby points must be made as station-to-station calls, no person-to-person calls being accepted to such points. See table on page 12.

Rates

For rates to Suburban Toll Points, see ages 9 and 10.

Rates to certain other out-of-town oints are shown on page 11. If the te for the point desired is not shown on age 11 call Long Distance.

Evening and Night Reduced Rates

These rates DO NOT apply to erson-to-person calls.

ON STATION-TO-STATION ALLS BETWEEN POINTS BOTH F WHICH ARE WITHIN NEW ORK STATE, where the station-to-ation day rate is more than 25c, Eve-ing Rates are in effect between 8:30 M and 12:00 Midnight and Night ates between 12:00 Midnight and 4:30 M. See table on page 12.

Exception: Reduced rates do not apply to certain points, as shown on Page 11, between May 25 and September 10, inclusive.

ON STATION-TO-STATION ALLS BETWEEN NEW YORK STATE AND OTHER STATES (INCLUDING CANADA) where the sta-on-to-station day rate is more than 35c, vening Rates are in effect between 7:00 M and 8:30 PM, and Night Rates be-ween 8:30 PM and 4:30 AM. Re-uced rates do not apply on calls to Cuba nd Mexico, or Europe. See table on ge 12.

tment Calls

for conversation may
a person-to-per-son call. Such calls are known as "Appointment Calls." The Company cannot guarantee completion of the connection at the exact time specified. The rate for this class of service is higher than the station-to-station day rate. See table on page 12.

Messenger Calls

Person-to-person calls may be made for an individual not having telephone service. In placing the call ask to have a messenger sent for the called party. Such calls are known as "Messenger Calls."

The rate for this class of service is higher than the station-to-station day rate. See table on page 12. The charge made by the messenger is added to the Company's charge for the call.

Report Charges

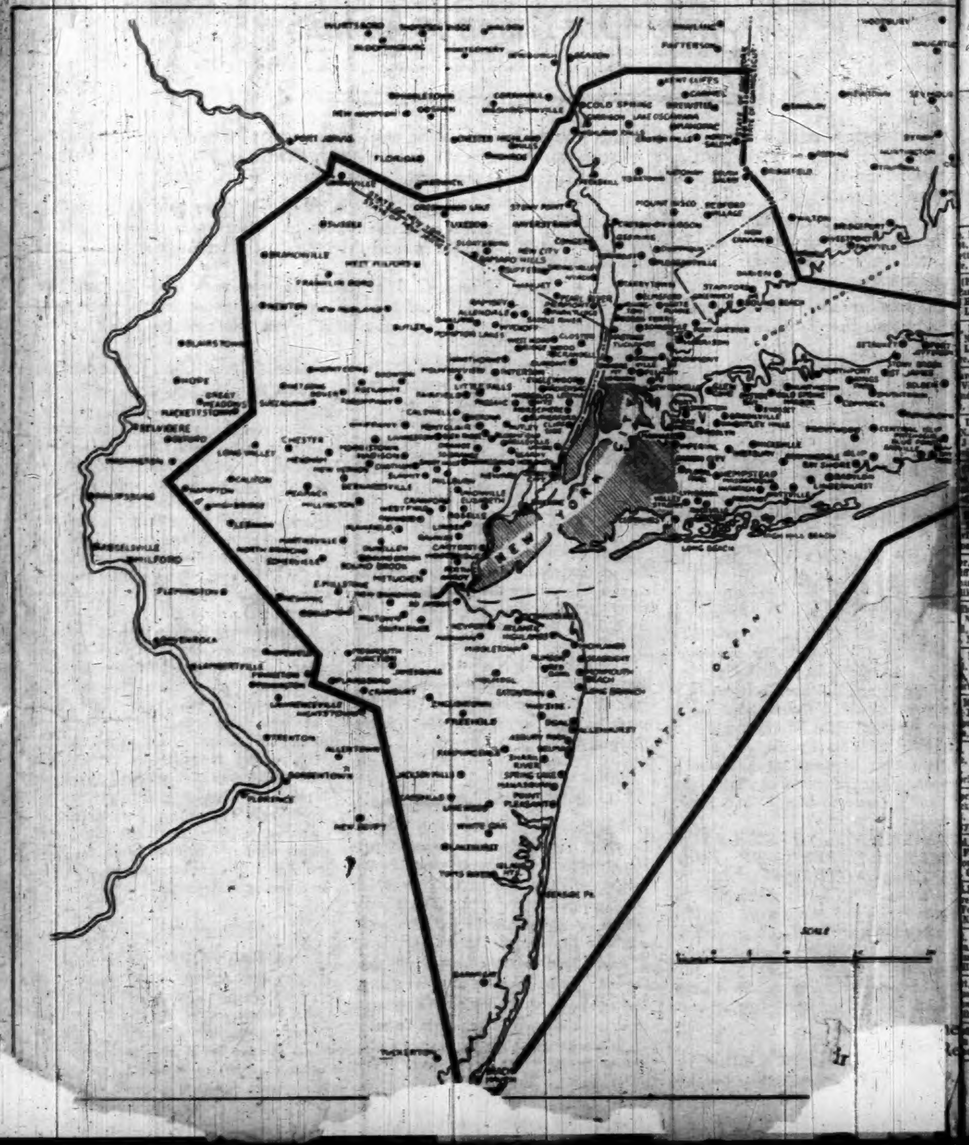
A limited charge, known as a "Report Charge," may apply to uncompleted person-to-person, including appointment and messenger calls, and on calls on which the charges are reversed. This charge is to compensate partially for the operating and the use of the Toll or Long Distance lines in the effort to complete the call. In no case will a report charge be made on a call in addition to a message charge. No report charge will be made if failure to establish the connection is due to "Busy," "Don't Answer," "Out of Order" or similar
at the called station. See

Collect Calls (Charges Reversed)

Upon request of the calling party the charges on all person-to-person calls (including report charges) and on certain station-to-station calls (as explained below) will be collected at the called station if such charges are accepted. Requests to have the charges collected in this way should be made at the time the call is given to the operator. If the call is not completed because of the failure of the called party to accept the charges, a report charge will be made against the calling party.

Charges may be reversed on station-to-station calls from New York City to points outside of New York State, where the rate is 35c or more. The regular station-to-station (day, evening or night) rates apply, except that the rate for a reversed 35c station-to-station call is 40c.

If request is made to reverse the charges on station-to-station calls from New York City to points outside of New York State, where the rate is less than 35c, or from New York City to all points within New York State, the calls are classed as person-to-person calls and are handled accordingly.



International Telephone Service

Telephone service is available from your telephone to any point in Canada, Cuba, England, Scotland and Wales, and to many of the important cities of Continental Europe and of Mexico. Communication may be made to these points or information and rates secured by
calling Long Distance in

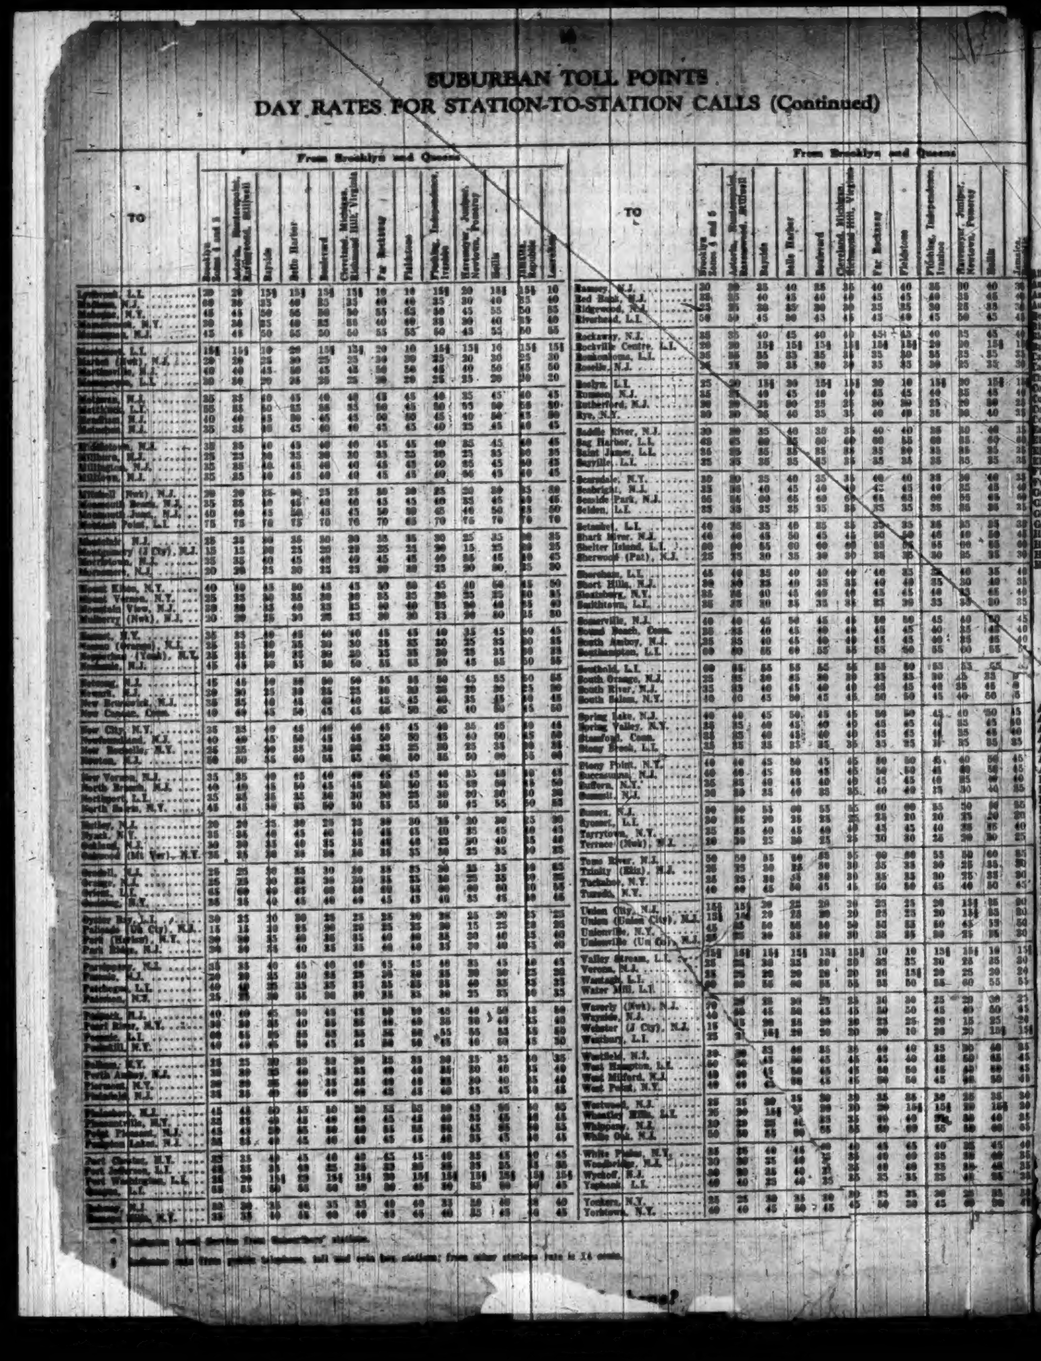
Summer 1928

SUBURBAN TOLL POINTS—ON CALLS FROM NEW YORK CITY

Calls from New York City to places located within the area indicated by the heavy line on this map are classed as Suburban Toll calls. Calls to places falling outside of this area are classed as Long Distance calls. An alphabetical list of the important Suburban Toll points is shown on the following pages. For further instructions regarding these calls see Page 6.

SUBURBAN TOLL POINTS
DAY RATES FOR STATION-TO-STATION CALLS

(Subject to Change Without Notice)



Rates are from Public Telephone and Subscribers' Stations, except as otherwise noted, and are in cents for 3 minutes initial period of conversation, except where the rate is 25c or less, in which case it is for an initial period of 5 minutes.

Rates for Evening and Night Calls, Person-to-Person Service and Overtime Charges are shown on page 12. Central Offices in Zones 4 and 5 are shown on page 5.

* Quoted only on calls between New York City and Connecticut

In cases where the Station-to-Station Day Rate is over $1.00, Evening Rates, Night Rates, Person-to-Person Rates, etc., can be obtained from the Long Distance Operator.

Station-to-Station Rates of 25c or less are for a five minute initial period. All other Station-to-Station Rates and all Person-to-Person Rates are for a three minute initial period.

This Table Shows the overtime charges for the initial period rates

	OVERTIME CHARGES WILL BE		OVERTIME CHARGES WILL BE	
WHERE THE RATE FOR THE INITIAL PERIOD IS:	5c	5c for each additional 5 minute period or fraction thereof	55c	15c for each additional 1 minute period or fraction thereof
	10c	5c " " " " " " " "	60c	20c " " " 1 " " " "
	14c	5c " " " 2 " " " "	65c	20c " " " 1 " " " "
	15c	5c " " " 2 " " " "	70c	20c " " " 1 " " " "
	20c †	5c " " " 2 " " " "	75c	25c " " " 1 " " " "
	25c †	5c " " " 1 " " " "	80c	25c " " " 1 " " " "
	30c	10c " " " 1 " " " "	85c	25c " " " 1 " " " "
	35c	10c " " " 1 " " " "	90c	30c " " " 1 " " " "
	40c	10c " " " 1 " " " "	95c	30c " " " 1 " " " "
	45c	15c " " " 1 " " " "	$1.00	30c " " " 1 " " " "
	50c	15c " " " 1 " " " "		

† Where Person-to-Person, Appointment and Messenger Calls are accepted at the above initial rates, the Initial period is three (3) minutes and the overtime period one (1) minute for the rates shown.
In cases where the initial rate is over $1.00, overtime charges can be obtained from the Long Distance operator.

Why [illegible] Telephone?

HOW TO MAKE A LOCAL CALL FROM A DIAL TELEPHONE

Points which can be reached on a local basis are indicated on Page 5. Dial these calls direct, as described below. Directions for placing Toll and Long Distance calls are shown on Page 6.

Obtain Correct Telephone Number

Obtain the telephone number from the latest issue of the telephone directory. If you cannot find the desired number in the directory, obtain it from "Information" by dialing 411. Consult the directory first, however, as "Information" does not usually furnish numbers listed in the directory. There is no charge for calls to "Information."

Remove the Receiver

Remove the receiver from the hook carefully. If you jiggle the hook you may get a wrong number.

Listen For the "Dial Tone"

The *Dial Tone* is a steady humming sound, which indicates that the line is ready for you to dial. DO NOT start to dial until you hear it. If you do not hear the dial tone, hang up the receiver and try again a little later. After hearing the dial tone, keep the receiver off the hook until you have finished with the call.

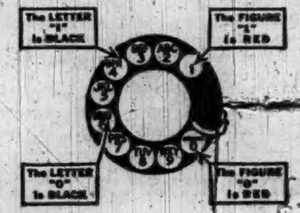
What to Dial

You will notice that the first three letters of the telephone number you want are capitalized in the directory. Dial these three letters, then the figures and the party line letter, if there is one.

How to Dial

Suppose for example you are calling OHio 5607:

Place your finger in the finger hole over the letter "J," and pull the dial around until your finger strikes the finger stop. Raise the finger and allow the dial to turn back. Do not touch it while it is turning back.



Repeat the process for the letter "O" (in black) and then for the letter "H." Dial only the first three letters of the central office name. Dialing the entire name will give a wrong number.

Ready to dial "7"—The last figure given in example

The dial pulled around to finger stop

Proceed at once to dial the four figures; namely, the figure "5," the figure "6," the figure "0" (in red) and the figure "7."

Remember that on the dial letters are black and figures are red. Do not confuse the black letter "O" with the red figure "0" or the black letter "I" with the red figure "1."

Ringing and Busy Signals

After you have completed dialing within a very short time you should hear either the ringing signal, an intermittent burr-rr-ing sound accompanying the ringing of the bell, or the busy signal, a rapid buzz-buzz-buzz (quicker and louder than the ringing signal).

If you do not hear either signal within half a minute, hang up the receiver, wait a few seconds and dial again. Make several such attempts if necessary and then if you still do not hear either the ringing signal or the busy signal, report the condition to the operator.

Note: When you are through with the call, hang up the receiver for a few seconds before dialing another number.

To Dial Operator (Assistance Calls)

If you wish to report a service irregularity or in case you have trouble in dialing a call, you can reach the operator by placing your finger in the last finger hole marked "Operator" on the dial and by turning it once to the finger stop. Then release the dial and the operator will answer.

Uncompleted Calls

When, for any reason, you do not obtain a connection (for example the called line is busy or does not answer or you do not hear the ringing signal) you will usually get quicker service if you try the call again yourself at intervals, instead of calling the operator immediately for assistance. No charge is made unless you obtain an answer from a subscriber's telephone.

Party Line Subscribers:

Before starting to dial, listen in the receiver to make sure the line is not in use. If no dial tone is heard, inquire if the line is being used by some other party. If no response is received, hang up the receiver for a few seconds and then make another attempt. If, after you dial, you hear another party come in on the line, inform him that the line is in use and request him to hang up his receiver. When he does so, hang up your own receiver for a few seconds, then remove it and dial the complete number again.

To call another party on your line, dial the operator, give her your number and the number you wish to call, and state that it is the number of another party on your line.

To Call an Extension Station Connected With Your Line

Dial the operator, give her your number and ask her to ring the extension station connected with your line.

Save Time—Telephone

Summer 1928

HOW TO MAKE A LOCAL CALL FROM A MANUAL TELEPHONE

Points which can be called on a local basis are indicated on Page 5.
Directions for placing Toll and Long Distance calls are shown on Page 6.

Obtain Correct Telephone Number

Obtain the telephone number from the latest issue of the telephone directory. If you cannot find the number in the directory, obtain it from "Information." Consult the directory first, however, as "Information" does not usually furnish numbers listed in the directory. There is no charge for calls to "Information."

How To Place Calls

Give the number to the operator in the following manner:

CAS-4 3827 say "Canal six-four-seven-eight".
1066 is 1000 and "plus one-zero-six-six".
Main 2525-J say "Main two-five-two-five-J".
8345 say "Eighty-three-forty-five".
9000 is 9000 say "Nine-thousand".
500 is 5000 say "Cinch one-five-zero-zero".

If you should hear the operator say your call to another operator incorrectly, say "No" and give the number again.

If you are calling from a party line message rate station, announce the letter on your station, if there is one, after giving the number as above. Example, "Worth five thousand, this is 'J' calling."

Ringing and Busy Signals

In a short time you should, in most cases, hear either the ringing signal, an intermittent buzzing sound accompanying the ringing of the bell, or the busy signal, a rapid buzz-buzz-buzz sequence and louder than the ringing signal. If you hear the busy signal, put down your receiver without waiting for a report from the operator. If you hear the ringing signal, give the called party sufficient time to answer, before abandoning the call. Make the call again a little later, if the connection is still desired.

There will be no charge unless an answer is obtained from a subscriber's telephone.

Where these audible signals are not provided, reports will be given by the operator.

Other clicking sounds or tones may occasionally be heard. Such sounds, however, are incidental to the operator's work and should be disregarded.

To Call Back the Operator

When it is necessary to call back the operator, move the receiver hook up and down slowly three or four times.

Moving the receiver hook causes a light to flash on the operator's switchboard. If you "jiggle" the hook rapidly, the light will not burn long enough to attract the operator's attention.

How to Send Telegrams and Cablegrams by Telephone

From Manual Telephones

Ask the operator for "Postal" or "Western Union" as desired.

From Dial Coin Telephones

Dial the operator and ask for "Postal" or "Western Union" as desired.

From Other Dial Telephones

Dial the number of the desired telegraph company as shown in the directory.

The regular telephone charges apply to this class of call.

By arrangement with the Postal Telegraph Cable Company and the Western Union Telegraph Company, telegraph charges for messages filed by telephone will be billed by the Telephone Company on telephone bills as rendered, or collected at public telephone stations, in the usual manner.

Persons calling telegraph companies for any other purpose than for sending a telegram or cablegram should call or dial the listed number for the department desired.

GENERAL INFORMATION

Applications for New Service—Changes in Location, Etc.

All matters relating to new telephone service, reasonable consolidation of service, directory listings, directory advertising, adjustment of accounts, collection of bills, etc., are handled at the Business Offices of the Company.

On account of the time needed for moving telephone equipment from one location to another, notice should be given at least ten (10) days prior to the date the change is desired. A large number of such orders are received about May 1st and October 1st each year. Ample advance notice (30 days if possible) is therefore requested, in order to enable us to make the change with the least possible interruption to your service.

Criticisms of Service

Operators are required to be courteous in their dealings with subscribers but are not expected to engage in conversation beyond that necessary to complete connections.

The Company values the prompt reporting of operating difficulties. This may be facilitated by asking the operator for "Chief Operator," using another telephone if necessary.

Bills for Service

Bills for local service will be rendered monthly in advance. Charges for additional local messages and toll and long distance messages will appear on the next bill. Charges for toll and long distance messages cover a period of one month beginning and ending several days before first of the calendar month. Charges for additional local messages will cover the calendar month preceding the month just mentioned.

GENERAL INFORMATION (continued)

Overtime Charges on Local Calls

In accordance with tariff provisions a "local message" is a connection on a local call five minutes or less in duration. Although it is not the Company's general practice to time all local messages as it is to time all toll messages, overtime charges will be applied whenever local messages from public telephones or subscribers' message rate stations are found to exceed materially five minutes in duration.

Changes in Directory Listings

This telephone directory is issued regularly twice a year. Notifications as to new listings, changes or corrections should be made to the Business Office at once.

Suspension of Residence Service

When a residence is to be closed for any considerable period, the telephone service may be temporarily suspended without necessitating removal of telephone instruments, and under certain conditions, if arranged for in advance, a partial allowance will be made for a period not exceeding four months in any calendar year. Bills will be rendered regularly while service is suspended, and the usual allowances credited to the subscriber when service is restored. This suspended service does not apply to business telephones.

Telephotographs
(Pictures by Wire)

Telephotograph stations for the transmission and receiving of pictures and printed or typewritten subject matter are available in:

New York	Cleveland
Boston	Atlanta
Chicago	Los Angeles
St. Louis	San Francisco

For hours of operation and charges call or dial operator and ask for Cortland Official 40 extension 1000.

Identification of Employees

Every employee of the Telephone Company authorized to inspect, repair or remove the Company's apparatus carries a special badge showing the Company's name and his own number. Subscribers are earnestly requested to refuse access to their premises to anyone who cannot in this way identify himself.

Free Calls

Calls from any telephone in New York City may be made to any department of the Telephone Company in the City and Suburban area without charge.

POLICEMEN and FIREMEN will be allowed Free Service on local calls provided that at the time the connection is asked for, the policeman or fireman making the call gives the operator his badge number and states that the call is made in the performance of his official duties. Local service areas in New York City are indicated on page 5.

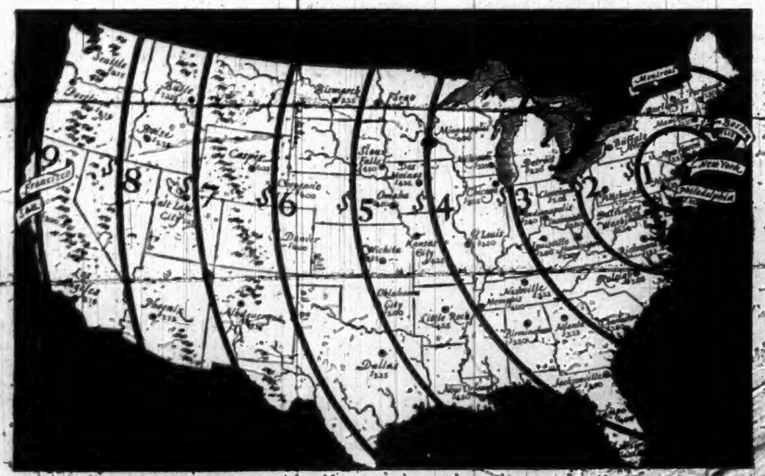
On all toll calls (trunk lines) coin-box stations, the coin deposited in order to call the operator will be returned.

Attachments

The Company's tariff provides that no apparatus or appliance not furnished by the Company shall be attached to or used in connection with its facilities. Telephone instruments are designed to perform the best results. Many of the unauthorized devices offered for sale, which are claimed to improve the service, get the telephone lines and instruments out of order and, in general, do not serve the Company will be compelled to remove any such devices. Where ordinary apparatus does not adequately meet a particular set of conditions, special equipment will be furnished by the Company at reasonable rates.

This directory is the property of the New York Telephone Company and subscriber or auxiliary other, except such as may be furnished by the Telephone Company, shall be used in connection with any telephone directory furnished by the Telephone Company.

Injuring Telephone Property



A person who wilfully or maliciously displaces, removes, injures, or destroys a line of telegraph or telephone, post or cable, pier or fastening, or any part of or property belonging thereto, without lawful authority, or who shall without like authority cut, break, tap, or make any connection with any telegraph or telephone line, wire, cable or instrument, or shall cut or injure, prevent or hinder the sending, transmission, reception or delivery of any message over any such line, wire or cable, instrument or apparatus, or shall wilfully permit any of the things in this section mentioned to be done by any person for whom or for whose benefit or by whose procurement or direction he shall willfully permit another to commit any of the acts hereinbefore mentioned, or who shall aid, agree with, employ or conspire with any person or persons to do or permit or cause to be done any of the acts hereinbefore mentioned, or who shall counsel, advise or assist any person to do any of the acts hereinbefore mentioned, or who shall willfully neglect or refuse to perform any duty imposed upon him by law, or any rule or regulation made by the Company in pursuance thereof, which neglect or refusal shall in any manner or way interrupt or impede the sending or transmission of any telegraph or telephone message, or who shall aid, agree with, employ or conspire with any person or persons to do any of the acts hereinbefore mentioned, or who shall counsel, advise or assist any person to do any of the acts hereinbefore mentioned, or who shall willfully neglect or refuse to perform any duty imposed upon him by law, or any rule or regulation made by the Company in pursuance thereof, which neglect or refusal shall in any manner or way interrupt or impede the sending or transmission of any telegraph or telephone message, or who shall willfully do or cause to be done any of the acts hereinbefore mentioned in this section, or willfully omit to do any act required to be done by him, or cause or permit any act to be omitted which will prevent, obstruct or delay the sending, conveyance or delivery in due time of any telegraph or telephone message, is guilty of a misdemeanor and punishable as provided by law.

—Extract from Section 1423 of the Penal Law.

Privacy of Telephone Service

A person who wilfully [illegible] attempts to obtain, [illegible] telegraphic or telephonic [illegible] connection with a line, [illegible] wire or cable [illegible] or any other apparatus [illegible] or telephone company, [illegible] shall, without [illegible] consent, [illegible] purpose, [illegible] [illegible] consent of the [illegible] graphic or telephonic [illegible] such message [illegible] use or disclosure [illegible] any [illegible] such [illegible] [illegible] [illegible]

And It's Just As Natural Over Long Distances!

HOW FAR YOUR TELEPHONE DOLLARS WILL GO!

In your personal contacts with people in your home you don't use the sign language or pass notes back and forth. To talk is natural. Any other method seems ridiculous.

When you want to communicate with someone in your own community you turn naturally to the telephone.

When you want to communicate with someone in a distant town, still use the natural method—talk them by telephone and talk as. Nothing is so expressive—so nice in communicating thought.

Even to distant points rates are low. You can talk for three minutes as far as 200 miles for only $1.35.

From Brooklyn and Queens to			
St. Louis	$3.50	Cincinnati	2.00
Chicago	3.25	Kansas City	4.15
Cleveland	2.05	Atlanta	3.25
Detroit	2.30	Memphis	4.00

Rates to other cities are given in the Directory
